# Aymen's Flutter 'RoadMap' {

## Step 01 : Dart Language

The initial plan should be deeply focused over the language in which you will be building your app. So focus the mainly over **DART LANGUAGE**

## Step 02 : Flutter Ecosystem

Explore the **Flutter Ecosystem** : yaml file, main method, runApp method, MaterialApp, StatelessWidget vs StatefulWidget ...

## Step 03 : Flutter Widgets

You should be knowing the **mostly** used **widgets** in Flutter. Everything in Flutter is a **widget**.

## Step 04 : Build your own creativity

Build your own App by linking Flutter concepts: **screen navigation**, **code management**, **App design**.

}

# Aymen's Flutter 'RoadMap' {

## Step 01 : Dart Language

The initial plan should be deeply focused over the language in which you will be building your app. So focus the mainly over `DART LANGUAGE`

## Step 02 : Flutter Ecosystem

Explore the `Flutter Ecosystem` : `yaml` file, `main` method, `runApp` method, `MaterialApp`, `StatelessWidget` vs `StatefulWidget` ...

## Step 03 : Flutter Widgets

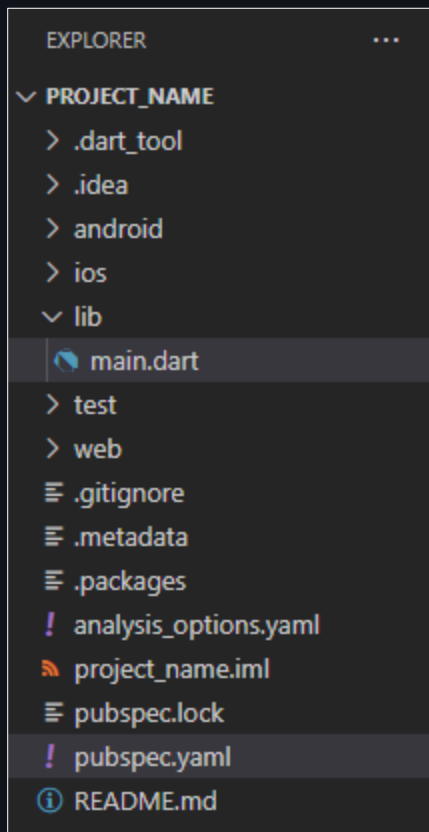

You should be knowing the `mostly` used `widgets` in Flutter. Everything in Flutter is a `widget`.

## Step 04 : Build your own creativity

Build your own App by linking Flutter concepts: `screen navigation`, `code management`, `App design`.

}

```
1  Flutter 'Ecosystem' {
2
3      [ Flutter Project ]
4
5
6      • Create new project (command) :
7
8          flutter create project_name
9
10
11     • we are mostly interested in the 2
12       files :
13
14         main.dart & pubspec.yaml
15 }
```

# Flutter 'Ecosystem' {

[ pubspec.yaml ]

}

```
! pubspec.yaml •
! pubspec.yaml
1  name: project_name
2  description: A new Flutter project.
3
4  publish_to: 'none' # Remove this line if you wish to publish to pub.dev
5
6
7  version: 1.0.0+1
8
9  environment:
10 |   sdk: ">=2.15.0 <3.0.0"
11
12 dependencies:
13 |   flutter:
14 |     sdk: flutter
15
16 # The following adds the Cupertino Icons font to your application.
17 # Use with the CupertinoIcons class for iOS style icons.
18 cupertino_icons: ^1.0.2
19
20 dev_dependencies:
21 |   flutter_test:
22 |     sdk: flutter
```

# Flutter 'Ecosystem' {

[ main.dart ]

```
main.dart •
lib > main.dart > _MyHomePageState > build
1 import 'package:flutter/material.dart';
2
3 Run | Debug | Profile
4 void main() {
5   runApp(const MyApp());
6 }
7 class MyApp extends StatelessWidget {
8   const MyApp({Key? key}) : super(key: key);
9
10  // This widget is the root of your application.
11  @override
12  Widget build(BuildContext context) {
13    return MaterialApp(
14      title: 'Flutter Demo',
15      theme: ThemeData(
16        primarySwatch: Colors.blue,
17      ), // ThemeData
18      home: const MyHomePage(title: 'Flutter Demo Home Page'),
19    ); // MaterialApp
20  }
21 }
22
```

# Flutter 'Ecosystem' {

[ StatelessWidget vs StatefulWidget ]

< A single StatelessWidget  
can build in many different  
Build Contexts :  
AssetImage, Text ... >

< A StatefulWidget creates  
anew State object for each  
Build Contexts : Scrollable,  
Animatable ... >

# Flutter 'Ecosystem' {

## [ StatelessWidget vs StatefulWidget ]

```
class MyHomePage extends StatelessWidget {  
  const MyHomePage({ Key? key }) : super(key: key);  
  
  @override  
  Widget build(BuildContext context) {  
    return Container(  
      );  
  }  
}
```

&lt; StatelessWidget &gt;

```
class MyHomePage extends StatefulWidget {  
  const MyHomePage({ Key? key }) : super(key: key);  
  
  @override  
  _MyHomePageState createState() => _MyHomePageState();  
}  
  
class _MyHomePageState extends State<MyHomePage> {  
  @override  
  Widget build(BuildContext context) {  
    return Container(  
      );  
  }  
}
```

&lt; StatefulWidget &gt;

}

# Alternative 'Resources' {

Here is an assortment of alternative resources to help you learn more about Flutter

- \* The official website "[flutter.dev](https://flutter.dev)".
- \* [Flutter](#) Medium articles.
- \* YouTube playlist "[Widget of the week](#)".
- \* The Complete 2021 Flutter Development Bootcamp with Dart by [The App Brewery](#).
- \* Stack Overflow "Flutter questions & answers".

# Acknowledgements & 'Rating' }

Thank you for participating in my sessions in GDB. I hope you had as much fun attending as we had delivering them.

I invite you to fill this [anonymous form](#) and be as honest as possible 🙏

Your opinion matters to me, some constructive criticism is always welcomed so we can be the best version of ourselves 🙏

Thanks in advance and until the next adventure! 🙏
